Gumball Painting

Do you like to paint? What do you use when you paint? What if you use something else? What would happen?

Materials Needed:

- Paint
- Gumballs
- Cardboard Box

Instructions:

1. Pour different colors of paint into the cardboard box.
2. Drop the gumballs into the box.
3. Pick up the box and gently move the box from side to side.

Questions:

- What happens when the gumballs roll through the paint?
- What happens to the gumballs?

Too easy?

- What else could you use instead of gumballs? Golf balls? Tennis Balls? Eggs? Marbles?
