

# Preschool Summer STEAM Saturdays

## Magnetic Rocket

Can you move a rocket without touching it?

Materials Needed:

- Paper plate
- Crayons or markers
- 2 magnets
- Paper rocket
- Craft stick

Instructions:

- On the paper plate, color your galaxy.
- Cut out a paper rocket and tape a magnet to it
- Put your rocket ship on your galaxy
- Attach the second magnet to the craft stick and go underneath the paper plate
- Move the magnet around. What happens?

Too easy?

- Add some obstacles to your galaxy, to create a maze for your rocket to go through

Books:

- Tiny Little Rocket by Richard Collingridge
- Rocket Science for Babies by Chris Ferrie
- Zoom, Rocket, Zoom! By Margaret Mayo
- Rocket Science by Dawn Sirett
- Rocket Racers by Steve Webb
